## Certifications

Certificate of completion: Claude 101  
Google Cloud Platform Big Data and Machine Learning Fundamentals  
Smart Analytics, Machine Learning, and AI on GCP  
Data Engineering with Google Cloud Specialization  
Building Batch Data Pipelines on GCP

# Shubham Gupta

Senior Software Engineer @ Tutero | Flutter & Go | Building Outfii — AI-powered wardrobe styling  
Goa, India

## Summary

I build products that people actually use — by day at Tutero (EdTech, Flutter + Go, event-driven microservices at scale), and by night on Outfii, an AI-powered wardrobe app that helps you figure out what to wear.

At Tutero, I architect cross-platform apps and backend services handling real-time data for thousands of students. Clean architecture, NATS, Kafka, Kubernetes — the works.

Outfii is my side project turned real product: snap your clothes, get AI outfit suggestions, track what you wear, never repeat a look. Built with Flutter, Supabase, and Gemini AI. Now in alpha.

I care about shipping fast, writing clean code, and solving problems people actually have.

---

## Experience

### Tutero

4 years 7 months

#### Senior Software Engineer

October 2022 - Present (3 years 7 months)

Australia

#### Flutter Developer

October 2021 - Present (4 years 7 months)

Australia

### Outfii

#### Founder

December 2025 - Present (5 months)

India

AI-powered wardrobe styling app. Snap your clothes, get personalized outfit suggestions, track wear history, and never repeat a look. Built with Flutter, Supabase, and Gemini AI. Now in alpha with early users

### UIPEP Technologies Private Limited

Android/Flutter Developer

January 2020 - October 2021 (1 year 10 months)

Bengaluru, Karnataka

Built and maintained Android & Flutter applications

Worked on API integration, performance, and UI polish

### Fame Technologies

Android Developer

July 2019 - December 2019 (6 months)

Indiranagar

### Siemens Healthineers

Internship

June 2017 - July 2017 (2 months)

verna, South Goa, Goa, India

---

## Education

Agnel Institute of Technology and Design

Bachelor of Engineering - BE, Electronics and Communications

Engineering · (2015 - 2019)
